MIT Climate Interactive En-ROADS – Global Climate Action Simulator

- Systems Dynamic Model that has been
- calibrated and tested against a suite of climate models
- Using a "middle of the road" emissions scenario
- Even though it isn't specific to the US, one can evaluate the relative effectiveness of the measures being simulated and how they might work together to reduce emissions

<https://en-roads.climateinteractive.org/scenarios.html?c=11.1.1>
